EDISON, WRIGHT AND FORD TO HEAD INVENTIVE GIANTS OF NAVY'S ADVISORY BOARD

Wizard of Electricity Will
Direct Submarine Work and
Airman That of Aeroplanes.

AUTO EXPERT, 'DOCTOR.'

Other Notables Also Listed by
Secretary Daniels for the
New Bureau.

WASHINGTON, July 13.—Orville Wright is scheduled to join Thomas A. Edison among the members of the Navy Advisory Board of Civilian Inventors which Secretary Daniels is organizing, it was understood in naval circles here to-day. Other suggestions for membership included the names of Henry Ford, Cooper Hewitt and Prof. Lewis Johnson.

The following have also been mentioned: Alexander Graham Bell, Simon Lake, Prof. R. A. Fessenden, John Hays Hammond Jr., and Hudson Maxim. Dr. Bell, besides his invention of the telephone, is a wide worker in the field of science; Mr. Lake's name is associated with submarines; Prof. Fessenden is a wireless expert; Mr. Hammond has conducted successful experiments with high explosives, and with a device for controlling the courses of torpedoes and even ships by wireless; Hudson Maxim works with explosives.

Of the various persons the Secretary has considered for the work in hand, it was understood to-day that he was most anxious to secure the services of Edison as his submarine expert, of Wright as his aeroplane expert, and of Henry Ford as his adviser on the practical application of all sorts of inventions and, incidentally, as a general "efficiency doctor" for the navy.

None of those named will be limited to any particular field, according to officers in touch with the Navy Secretary's plans, but it was acknowledged that Secretary Daniels regards the submarine and the aeroplane as the two things calculated to play the most important part in the sea warfare of the future and is especially desirous that they receive the most thorough attention by the new board.

With Edison as the Navy's expert on undersea craft and Wright as its authority on vessels of the air, it was agreed the Department will have the greatest combination in the world.

M. R. S. Hutchinson, personal representative of Mr. Edison, called on Secretary Daniels to-day and informed him of Mr. Edison's acceptance of the invitation.

"Mr. Hutchinson told me," said Secretary Daniels, "that Mr. Edison regarded my invitation as a call to duty and that he would be glad to render any service possible to his country."

HEADS THE SUGAR TRUST.

Earl D. Babst Elected to Chief Executive Office.

With the retirement of Edwin F. Atkins of Boston as Chairman of the Board of Directors and executive head of the American Sugar Refining Company, No. 117 Wall Street, Earl D. Babst of this city becomes President and chief executive officer of that organization. Mr. Babst resigned as Vice President and general counsel for the National Biscuit Company in March, after many years' service, and was elected Vice President and a director of the sugar company. Since March he has been studying the properties and methods of the latter organization and assumes his new duties fully equipped.

SUPREME COURT JUSTICE DELANY DYING AT HOME

Former Corporation Counsel
and Politician Cannot Re-
cover, His Doctors Say.

Justice John J. Delany of the Supreme Court is very ill at his home in the Clearfield, One Hundred and Third Street and Riverside Drive. His physicians believe he may die before night.

Justice Delany caught a cold two months ago, but continued to hold court until his physician forbade him to leave his home. For more than a month he has been under treatment, but his condition has grown steadily worse. In the last few days uraemic poisoning has developed, and at noon he was so low that hope was abandoned.

Justice Delany was born in the old Eleventh Assembly District on the west side in 1850. He was educated at the College of St. Francis Xavier and early became active in Republican politics. After a few years he joined the County Democracy and was one of the most outspoken critics of Tammany. But eventually he became a member of Tammany Hall. He soon gained fame as an orator and in 1889 was appointed an Assistant Corporation Counsel. When George McClellan was inaugurated Mayor of New York, in 1904, he made Mr. Delany Corporation Counsel.

Mr. Delany was nominated for the Supreme Court bench in 1910. The Bar Association endorsed him. R. Fulton Cutting of the Citizens' Union wrote: "Your administration of your office was in accordance with your convictions as to the best interests of the city and with fidelity to your official duty." He was elected by a big majority and he served until his present illness.

Justice Delany has a wife and six children.

Figures of Strength and Meaning!

DR. FLINT CHARGES THAW WITH EFFORT TO HYPNOTIZE HIM

Case Will End Soon and
White's Slayer Made Attempt
in Courtroom.

PRISONER ONLY LAUGHS.

Case May End To-Night and
Thaw Is Confident of
His Freedom.

Dr. Austin Flint, nearly eighty years old and a foremost alienist, to-day at Harry Thaw's sanity hearing before Justice Hendrick and an advisory jury, accused Thaw of trying to hypnotize him in the courtroom.

He was being nagged by John B. Stanchfield, Thaw's chief counsel, to whom he had admitted yesterday he had seen no signs of insanity in Thaw at the present trial.

"Did you see him do anything in that chair or in this courtroom now indicating insanity?" demanded Mr. Stanchfield.

"Yes," was the response. "What was it?" "Thaw tried to hypnotize me." "He did what?" "He tried to hypnotize me, I say, by staring at me."

"Where?" "When I was sitting down there on the floor he stared at me steadily for fifteen minutes."

THAW TRIED HARD TO SUPPRESS HIS LAUGHTER.

There was a momentary disturbance, caused by Thaw's efforts to suppress his laughter. He rocked back and forth with his face in his hands. Dr. Flint continued:

"It is in the record in this case that he studied hypnotism to reform young girls."

"Do you really believe he meant to hypnotize you?" "Well, maybe not."

Then the alienist's cross-examination ended.

Dr. Raymond C. Kieh, superintendent of the Matteawan State Hospital from which Thaw escaped, and Dr. Amos T. Baker, resident physician there and once acting superintendent, were present in the court, prepared to follow Dr. Flint on the witness stand.

THAW CONFIDENT OF FREEDOM IN A FEW MORE HOURS.

Thaw is still confident he will be freed Friday. The pile of automobile catalogues and road maps among his legal papers is growing. Counsel will finish summing up to-morrow, probably.

Mr. Stanchfield went to Dr. Flint to-day with an attack even more savage than that of yesterday.

Q. Do you keep in close touch with the Manhattan State Hospital? A. I get written reports.

Q. That isn't very close touch, is it, with an institution of which you have paraded yourself here as being one of the trustees? A. Haven't paraded myself—nothing of the sort!

Q. Mentioned it as one of your qualifications, didn't you? A. It is a position of honor rather than of work. Q. Ah, you are qualified by honors rather than by work! But does not the Manhattan State Hospital regard "constitutional inferiority with paranoid trend" as distinct from "paranoia"? A. It does.

Q. But didn't you say here yesterday that they were one and the same thing? A. One may prove the other, I told you.

Mr. Stanchfield tormented the veteran alienist along these lines steadily. Dr. Flint said that "constitutional inferiority" was a term adopted with-

ACCUSE SOCIETY BEAUTY AND DIPLOMAT IN PLOT

Pair Charged With Attempting to
Assassinate the Ruler of Bulgaria With Bomb.

SOFIA, July 13.—Arrest of Dr. N. Ghenadiev, former Foreign Minister of Bulgaria, and Elena Anastasiew, a beautiful society matron, on the charge of conspiracy in the plot to assassinate Czar Ferdinand in the Sofia Casino last February caused a sensation here to-day.

The pair were taken into custody immediately after two Bulgarians, accused of throwing the bombs that killed many prominent Sofians, had been sentenced to death. Dr. Ghenadiev protested his innocence, but authorities declare they have evidence to show that he was in a conspiracy with Russian and Serbian agents to kill the Bulgarian ruler and organize a revolution. The Anastasiew woman is the wife of one of the men sentenced to death.

ARMY GUN EXPERTS GO TO PRIVATE CORPORATIONS

Secretary Garrison, Accepting
Resignations, Speaks of Special Aid They May Give.

WASHINGTON, July 13.—On the theory that the safety of the country may rest upon the adequate development of its commercial gun and ammunition factories, Secretary Garrison announced to-day that he had decided to accept the resignations of Lieut. Col. Odus C. Horney and Major William A. Phillips of the Army Ordnance Bureau, who have been offered posts with companies holding large munitions contracts from European belligerents.

KICKED OFF SUBMARINE WHICH SANK STEAMER, SAY ARMENIAN'S MEN.

NEWPORT NEWS, Va., July 13.—The British steamer Victorian arrived here to-day with four survivors of the British mule ship Armenian, sunk by a German submarine June 25 with the loss of more than a score of lives. The men landed here were negro mulattoes, who asserted that when they attempted to scramble aboard the submarine they were kicked off by the German sailors, who laughed at them.

Woman Hanged Herself.

Mrs. Marie Anderson, fifty years old, of No. 252 Second Street, Jersey City, ended her life by hanging to-day. She had a clothes line which she threw over a transom in her bedroom. An eight-year-old daughter found her. She had been in poor health.

THOMAS A. EDISON.

Isaac L. Rice Makes \$1,000,000 in Month, Report on Exchange

Disposed of 28,000 Shares of
Electric Boat Company
Stock That He Held.

A fortune of more than a million dollars is reported to have been made in Wall Street in the last month by Isaac L. Rice of New York. He was the owner of 28,000 shares of Electric Boat Company stock, which has made the most sensational rise on the Stock Exchange since Bethlehem Steel's skyrocket flight.

It was announced to-day that Mr. Rice had disposed of all his holdings during the recent rise, and that the banking firm of H. P. Goldschmidt & Co. had taken 16,000 shares. Rumors that the purchase was made in German interests were denied, but there was a good deal of talk in the Street about the purchase and the phenomenal rise in price of the stock.

Within two months Electric Boat stock has risen more than 100 points. To-day it sold on the curb at 185. The stock is not listed on 'Change.

War orders are responsible for the rapid rise. The company in times of peace made electric launches and pleasure craft. Now it has orders from the allies for a fleet of small craft to be used in chasing submarines.

The stock market to-day started off with a rush of business and a rising tide of prices. In the first hour sales amounted to 143,000 shares, which gave cheer to brokers and brought on unusual midsummer attendance on the floor of the Stock Exchange.

War stocks performed eccentric acrobatic stunts, jumping up and down so rapidly that it was difficult to follow them. The new star, American Coal Products, that has been holding the centre of the stage for several days, flopped backward, tumbling down 15 points to 154 from yesterday's high.

Its place was taken by a revived old timer, New York Airbrake, a newcomer, Cuban-American Sugar, that climbed to new high levels. The Airbrake stock touched 109, a rise of fifteen points in two days. Cuban-American Sugar boiled up to 103, making a gain of twenty points this week.

Bethlehem Steel made a new high mark of 174 where it was joined by a new high flyer, General Motors, both selling at same price. Neither stock has yet paid a dividend.

Baby Born to Mrs. Dr. Blake.

Mrs. Dr. Joseph Blake is the mother of a baby girl in Paris. The news was brought this morning by Dr. Robert V. Greenough, arriving on the French liner Rochambeau. Dr. Greenough was one of the Harvard unit sent from the university to Dr. Blake's American Ambulance Hospital in Paris. Mrs. Blake was Mrs. Clarence H. Mackay.

(For Quotations See Page Four.)

ORVILLE WRIGHT

1,097,000 SUBSCRIBERS TO THE BRITISH WAR LOAN

Total Amount Reaches \$3,000,000,000, McKenna Tells House of Commons.

LONDON, July 13.—The total subscription to the war loan amounted to close on £600,000,000 (\$3,000,000,000), according to the statement made by Reginald McKenna, the Chancellor of the Exchequer, in the House of Commons to-day.

The total number of subscribers through the Bank of England was 550,000, whose contributions aggregated £370,000,000 (\$2,850,000,000).

The subscriptions through the post-office have not yet closed, but up to date 547,000 persons have subscribed £78,000,000 through this channel. No figures are available as to the number of small vouchers taken out.

Mr. McKenna in making the statement pointed out that the figure of £600,000,000 (\$3,000,000,000) mentioned in the newspapers neither was expected nor desired by the Government. If that amount had been reached, he said, it would have been necessary to close the list.

BABY A DRUG FIEND.

Eight-Months-Old Infant Shows Every Symptom.

An eight-months-old baby with the morphia and heroin habit clearly developed was the astounding find reported this afternoon to the Justices of the Special Sessions by Dr. Perry Lichtenstein, the Tomba physician. The baby is the daughter of Mrs. Sadie Shapiro, arrested yesterday at No. 23 East Second Street, with her husband, charged with violating the Hoyley drug law.

Dr. Lichtenstein says the baby shows all the symptoms of a drug patient—exaggerated nervousness, tremors, cramps, constant sleepiness and a wild desire to nurse. He is sure that it caught the drug habit through its mother.

Justices Russell, Herrman and Herzig committed the mother and baby to the Metropolitan Hospital. The man, Edward Shapiro, is awaiting trial.

Commons Thanks Both.

LONDON, July 13.—The House of Commons this afternoon, on motion of Premier Asquith, extended a vote of thanks to Gen. Botha, commander of the South African forces who conquered German Southwest Africa.

Sooths and heals throat and lungs.—Advt.

GERMANS DRIVE BACK FRENCH NEAR SOUCHEZ IN DESPERATE CHARGE

Berlin Reports Desperate Struggle
in Progress Around the Cemetery
and Taking of Red Cabaret Inn
After Three Weeks of Fighting.

SUCCESS AT "LABYRINTH" CLAIMED BY THE FRENCH

PARIS, July 13.—It is announced by the French War Office that a squadron of thirty-five aeroplanes ascended this morning in a wind blowing forty miles an hour and bombarded the railroad station strategically established by the Germans at Vigneulles-Les-Hattonchattel. This station served the region of the Calonne trenches and that of the Forest of Apremont.

Very important stores of every kind, and particularly ammunition, were concentrated there. Our aviators dropped upon these objectives 171 bombs of ninety kilograms each.

[As each bomb weighed nearly 200 pounds, the French aviators hurled a total of about 34,000 pounds of metal on the German position.]

The bombardment started several fires. All the machines returned, although they had been violently cannonaded.

"In front of our positions at the 'Labyrinth,' the war office report continues, 'a German attack was attempted last night under the protection of a violent curtain of fire. The assailants were decimated and completely thrown back upon their lines.'"

"There was a combat with hand grenades and cannonading in the Forest of Apremont in the region of Regneville and in the Forest of Le Preire."

"In the Voges an attempted attack by the Germans directed at a bridgehead occupied by us on the east bank of the Pech River at Sonderhouse was repulsed."

Heavy Losses on Both Sides At Souchez, Reported by Berlin

BERLIN (via wireless to London), July 13.—German troops have captured 600 yards of French trenches in the desperate battle raging around the Souchez country and have occupied the fortified inn known as "The Red Cabaret."

The French were shelled out of their positions at "The Red Cabaret" after a three weeks' battle for possession of the position, dominating one of the roads leading to the Souchez sugar refinery, held by the enemy. Losses on both sides have been extremely heavy. The inn was finally taken by storm after German shells had wrecked portions of the French defenses.

The French attempted to divert German troops from the scene of the struggle around the cemetery by attacking from the sugar refinery with hand grenades. The Germans turned heavy guns upon the ground before the refinery and the enemy retired.

"Four French attacks in Le Preire woods broke down, the enemy suffering heavy losses," said this afternoon's War Office statement.

GERMAN SUCCESSES IN DRIVE TOWARD SEA. REPORTED BY LONDON

LONDON, July 13.—For thirty-six hours the British and their French allies have fought desperately to check a whirlwind attack suddenly inaugurated by the Germans on almost the entire length of the western battle front.

Thus far the advantage is entirely with the Kaiser's troops. The cemetery at Souchez, won by the French after months of desperate fighting, and yard by yard gains, is in the hands of the invaders again. Short stretches of trenches in the same position also have been lost. And in the
